Did You Know?

Kings Canyon is the deepest canyon in North America. It reaches a maximum depth of 8,200 feet—that's even deeper than Arizona's Grand Canyon!

Long before green was fashionable, Delaware North set about the task of establishing an environmental management program to help protect the parks in its care. That was the beginning of GreenPath®, the first environmental management system

of a U.S. hospitality company to be registered to the standards put forth by the International Organization for Standardization.

Now in place company-wide, GreenPath has made a remarkable difference. We have diverted thousands

of tons from the solid waste stream, saved millions of gallons of water, reduced energy consumption and devised new and better ways of doing things. We are leading the way in environmental management for a hospitality company and we couldn't be more proud of the results.

WARNING: Eating raw or undercooked meat, poultry, eggs or seafood poses a health risk to everyone, especially to the elderly, young children under age 4, pregnant women and other highly susceptible individuals with compromised immune systems. The cooking of such animal foods reduces the risk of illness.
